

Press Release n.936 of 10.05.24

Gesesa for the school: this morning the students of the Alberti Institute of Benevento visited the Pezzapiana lifting plant and the purifier in the Ponte delle Table area.

Benevento, 10th May. This morning the students of Progetti per le Competenze Trasversali e l'Orientamento (Projects for Transversal Skills and Orientation) program held this school year by Gesesa at the Alberti Institute of Benevento, "Chemistry, Materials and Biotechnologies" course, could see live the industrial water path studied at school desks with the masters of the craft from Gesesa.
