

PRESS NOTE

ACEA SUPPORTS FIABA DAY 2024

Rome, 4 October 2024 - Once again this year, Acea supports **Fiaba Day - the national day for the removal of architectural barriers** - created by the social project **Fiaba ETS**, which will be held in Rome on next 6th October.

In its 22nd edition, Fiaba Day represents a symbolic day to discuss daily actions that can make a difference in creating an accessible world for everyone.

The commitment to build a culture of inclusion and accessibility, which is at the heart of Fiaba Onlus project's initiatives, fully coincides with the corporate ethic of Acea Group, which has always supported the fight against architectural barriers with actions aimed at creating accessible environments in the areas where it operates, and urban spaces that can be lived by people with disabilities, elderly people, and their care takers.
