**Rome, 04 april 2025** – A **10-million-euro plan for Rome's public lighting**. **Areti**, a company of the ACEA GROUP that manages the capital's power grid on behalf of the Municipality of Rome, has launched a series of interventions to modernize and enhance the city's lighting system.

In Rome, Areti manages and maintains more than **205 thousand light points** and a public power grid spanning over **8,200 km**, across an area of 1,290 km<sup>2</sup>, a surface area equivalent to the combined size of 8 Italian cities, including Milan, Turin, Genoa, Bologna, Florence, Naples, Catania, and Palermo.

The plan includes a wide range of interventions made possible through Jubilee funding: from modernizing the power grid, to improving the quality of light, and equipping 17 metro and railway stations with new lighting systems, from the city centre to the outskirts.

As for the **grid modernizations**, the following interventions are planned: 1. Piazza Grazioli 2. Via dei Sediari 3. Via dei Filippini 4. Via dell'arco del Monte 5. Via del Cardello 6. **Artistic lighting** interventions are planned for the Temple of Minerva Medica on Via Giolitti and for Porta Maggiore.

Last February, **Illumina Roma** was launched. The new app allows users to report, in real time via smartphone or tablet, which light points in their area require maintenance. The app enables Areti to optimize the management of reports and improve service quality through active citizen participation and engagement, making residents an integral part of the improvement process. In addition to the app, reports can also be submitted via the Areti website ([www.aretì.it](http://www.aretì.it)) and by calling the toll-free number **800 00 66 77**, available 24/7.
