

PRESS RELEASE

Rome, 5 June 2025 - News in Acea Group's regulated businesses. After water, environment and electricity networks, a.Gas (Acea Gas) is being born. As part of the rationalization of business lines, Acea launches another important novelty with the establishment of a new company aimed at consolidation and growth in the gas distribution sector.

The new business line brings together the activities already carried out in the gas distribution sector where Acea is already present in four regions: Abruzzo, Campania, Molise and Umbria.

The goal is to expand the industrial presence in the territory, with consequent and positive effects on employment, also in view of participation in future tenders for gas distribution, including the one for the city of Rome.
